

International Makeup Artist for glominerals™, Aldo Celeste

As an international model, Aldo Celeste participated in countless photo shoots throughout Europe. With each shoot, his awe of the transformation of the female models grew...as did his interest in cosmetics and the power they hold. Aldo started by overseeing the makeup application for various European photo shoots. Over time, Aldo's natural talent for making a woman look and feel beautiful soon developed into advanced application skills demanded in cities from New York to Los Angeles.

With his 15 years in the cosmetic industry, Aldo has had the opportunity to work alongside such artists and cosmetics lines as Vincent Longo NY, Bobbi Brown, Jeanne Lobell, creator of Stila cosmetics, and Chanel. He has also worked with clients ranging from Calvin Klein, Nicole Miller, and Anna Sui to Jennifer Aniston, Christy Turlington, and Madonna.

Having learned so much from past mentors, Aldo has utilized this knowledge and created a style of educating all his own. He relates his passion by thoroughly educating his clients, so they have the tools and knowledge capable of attaining any look they desire. His primary goal is to have clients realize their inner beauty, while giving them the tips and tools to achieve a beautiful outward appearance to match.

beauty with a higher purpose™
